

DC1 Task A Submission Template

Task A:

Your Full Name: Phuc Lam Vo

Your Student Number: N11912839

Your group members (please list their full names):

- Mattie Davis
- Edmund Shelly
- Luke Dorge
- Lachlan Willis

Your tutor name (the name of the tutor responsible for your group): Geoff Polzin

Name of your app: SmartTrolley

(Please note that you need to choose a name for your app, for example "ParkingAssist" if your app is about assisting people for finding parking spaces)

Copy and paste the link to your video here:

<https://youtu.be/ULGNgoSHFmU>

<https://www.youtube.com/watch?v=xK2Hx8-DYNw> (back-up link)

- Important: the space that you share your video should be unlisted (an unlisted video on YouTube or Vimeo). Any video on a public space will not be accepted.
- Each student must provide two links in this template file, including: the link to their group presentation video and the link to their prototype. The contents in each link should be identical among all group members.
- This file can be submitted as a Word file or as a PDF file (not as any other type of file that Windows users cannot open it).
- Each individual in the team should submit a link to the complete video that is a complete final product of all the videos that have been produced by all members (8-9 minutes overall). You do not need to send us any link that only covers only your own presentation section.
- Each individual in the team needs to list their full name at the start of their presentation in the video. You will lose your presentation mark if you forget to mention your name in the video that you have produced.

Copy and paste the link to your mobile prototype here:
